

Art Catalunya 2011 view from the hotel

This is a fantastic trip if you are interested in Art- such as sketching, painting, architecture, taking photos and/or visiting museums and cities like Barcelona. This is a relaxing, enjoyable trip where everyone can work at his/her own speed and level, choosing their own style of expression. Even students who haven't had Art for years usually manage to create beautiful work. We will be based in the area of southern France and northern Spain that was a centre of activity for many of the worlds best known 20th century artists including Picasso, Dali, Miro, Matisse, Maillol, Gaudi etc. You will have the opportunity to do your own art work, view the work of the artists mentioned above and visit the places where they lived and worked.

We will also enjoy the other commodities of the region, the good food, the beaches, the shopping and sunny location. Cooking is an art form of its own, so we will prepare an artistically arranged meal on one occasion.
