Winners of the eLearning competition 2009-2010 of the European Schools

Sponsored by the Slovenian Presidency

1. Introduction

The fourth edition of the **eLearning Awards** of the European Schools has taken place during the school year 2009-2010. The aim of these awards is to recognise and reward innovative uses of Information and Communication Technology in Education (ICTE) whilst showcasing teachers' professionalism and pupils' creativeness.

On the 5th and 6th of May 2010 the Distance Learning working group met in Brussels to evaluate all the contributions put forward by pupils and teachers in the fourth ICT competition of the European schools .

106 contributions in total have been evaluated.

The digital works were assessed using 6 categories of criteria: pedagogic usability, technical implementation, applicability to different groups of learner, interactive and experiential characteristics, creativity and novelty.

All contributions are accessible to all the European School community on the Learning Gateway at the following link:

<https://portal.lg.eursc.org/Community/Workinggroups/Elearningcompetition/Documents>

2. Hall of Fame (list of winners)

The winners are:

Primary Pupils Category:

1st prize: Pedrom MESKINI (European School of Culham, P4ENa, 9 years old) presented a Digital Art Video Project combining several subjects: Art, Music and ICT. The jury was impressed by this good combination beautifully executed. Inspiration from this project came after a visit to Georges Pompidou centre in Paris. This pupil made his video art project in the school of Culham, he took himself all the pictures and gave a good description of the process (how to create a video from digital pictures and Adobe Pinnacle Studio).

2nd prize: Julia NORDVIC (European School of Varese, P4ITa, 9 years old) with her video project "4 days in Brussels".

3rd prize: Plamen NESHKOV (European School of Brussels IV, P5ENa, 10 years old) with his impressive Web browser programming application "Web Hunter".

The jury will also like to mention the extraordinary work of **Julian WEBER (European School of Culham, P5DEa, 10 years old)** who finished in the 4th place with a very good Word Processor video training kit, the jury have enjoyed the good flow on the speech and found the contribution very instructive for pupils of his age.

Secondary Pupils Category:

1st prize: Maximilien BAAS THOMAS (European School of Culham, S5FRa, 16 years old) presented a video art contribution, “Movie out of a stop motion: Genocide”. All elements of this contribution (storyboard, images, stop motion animation) are very well executed. It has a very strong message (all humans are equal) underlined with a very appropriate music. The theme chosen shows a great sensitivity and can inspire interesting discussions in the class. It can be used in all levels. The associated memory described the technique and give details about the process and the time employed.

2nd prize: Carlos ALCALA-SANTAELLA MACIAS (European School of Alicante, S7ESa, 17 years old) with his complete e-commerce web site “e-Tienda/e-Shop”.

3rd prize: Enrique Alejandro GALCERAN GARCIA (European School of Alicante, S4ESa, 15 years old) with his useful Excel application “Absence and Late marks spreadsheet”.

Teachers Category:

1st prize: Christopher HERRING (European School of Brussels II-Woluwe) obtained the first award with his exciting contribution “Digital Teaching Materials for L2 and L3 English Language”. This is a huge compilation with excellent teaching material that can be reused (if translated) for all languages and can be used on primary level as L1. The content is very interactive and inspiring. The interactive whiteboard activities and the YouTube videos are a very attractive material for young learners. His big variation of content and activities for students project was very well combined with pedagogical instructions for the teachers.

2nd prize: Françoise JOURDE (European school of Brussels I-Uccle) with his contribution “Collaborative web sites for teaching Philosophy”.

3rd prize: Mr Juan José SOTELO VAZQUEZ (European School of Culham) with his contribution “Spanish Blog” for teaching Spanish.

The jury encountered a lot of difficulties the three winners as this year practically all contributions on the teachers category merited an award.

School Groups Category:

1st prize: European School of Culham with the project “Drugs just say NO”, an excellent combination between ICT and biology involving several pupils and teachers. The project deal with a hard subject but it managed to give a very effective and important message. The material is reusable in other schools on the secondary level, as it put on view a well balanced content presenting scientific facts and rough images on the effects of drugs.

2nd prize: European School of Mol with the contribution “Living and working in the monastery”.

3rd prize: European School of Varese (P2EN group) with the contribution “Performance poetry”.

The prizes will be distributed to the winners on the first week of June 2010. All participants will receive a participation diploma.

3. Summary of contributions

The following tables shows the number of contributions and the number of awards by school.

SCHOOL	PRIMARY PUPILS	SECONDARY PUPILS	TEACHERS	SCHOOL GROUPS	TOTAL CONTRIBUTIONS
